

**GOLD CREEK  
SIMMENTALS**

**2023 Bull Sale  
Monday 22 May at 2pm**

## WELCOME TO GOLD CREEK SIMMENTALS

Whilst the weather gods and Cyclone Gabrielle haven't been kind to the Gisborne area at the start of this year - with some areas remaining battered and bruised - the bulls in the line-up for this year's sale are nothing short of spectacular.

We have been working hard to continue to build on our well-known traits of high growth, fertility, structure and docility.

We can take great confidence from the fact that the herd is moving in the right and positive direction when 7 of the 34 bulls are out of first calving two year old heifers. Performance of the 2020 J drop heifers has seen outstanding weaning calf weights of 299kg at growth rates of 1.15kg/day and pregnancy scanning results of 98% in-calf after two cycles.

Climate and conditions have not prevented the team at Gold Creek Simmentals from cutting any corners. We have always remained 100% committed to our breeding programme regardless of the external factors thrown at us.

Proof of this comes from our recently purchased semen sire Woonallee Secret Service S086 at the Woonallee Simmentals sale in South Australia in partnership with Agri-Gene in February. Secret Service's presence, power, super soundness, homo-polled and impressive data sets aligned perfectly with our own breeding programme so it made sense to partner up and ensure we got access to this very impressive animal.

In the 2022 sale season we also purchased the strong, sound walking sire Kerrah Jonah J354, who was the top priced Simmental bull in NZ at \$27,000. Structurally Jonah is a very good and offers mega carcase impact to those that are interested.

We have always made sure we align our breeding programme to the needs and wants of our valued clients. In doing so, we will always push the boundaries of what's possible and do our best to set a higher standard.

This means thinking differently and not doing what's always been done, because as they say "what got you here won't necessarily get you there."

Our breeding values continually improve each and every year. We listen to what you want and we take action because we know your success is our success. And that's the only way we ensure you keep coming back for more.

We thank you as always for reading and considering our 2023 catalogue and look forward to working with you or seeing you at our sale.

Tom Sanson  
Stud Manager

# SETTING THE STANDARD

## WE BREED CATTLE THAT WILL ENHANCE YOUR BOTTOM-LINE.

We have over 200 fully registered pure Simmental cows on the property. We have invested significant time and effort into searching for the right genetic material to enhance our breeding programme here at Gold Creek. We run an extensive Embryo Transfer Programme using the best sourced genetics from across the globe, all sourced via Woonallee Simmentals in Australia. Every year we are flushing our very best cows and introducing a range of genetics to continually lift the quality of calves produced. All registered calves now have 100k SNP profiles.

## ENSURING WE ARE DELIVERING WHAT OUR CLIENTS NEED.

We aim to breed predominantly polled cattle. This is something our industry is increasingly

moving towards, and something we are seeing our clients demand more. All bulls have 100k SNP profiles and have been sire verified so you can be sure pedigrees are correct. Incorrect pedigree information can drastically alter a bull's breeding values. All our bulls have also been service capacity tested and semen tested so you can be confident they are ready to go at mating time.

## WE FOCUS OUR EYE ON THE END PRODUCT

We place great emphasis on producing faster finishing, high yielding fleshy cattle. We want to put more meat on a smaller frame than traditional Simmentals, which is one of the main reasons for sourcing genetic material from beyond the shores of New Zealand as well. To measure the progress of our breeding programme and to select the best replacements, all cattle between 12 and 15 months are scanned for eye muscle area, p8 fat, rib fat depth and IMF. We also closely monitor carcase yields on cull animals sent for slaughter, with most yielding in excess of 60%.

## WHILST ENSURING THE FULL PACKAGE IS TOP QUALITY

Above all, all cattle must be structurally sound, mobile and capable in hill-country. Breeding females are assessed yearly, and all sale bulls are independently assessed by beef class assessor, Bill Austin. Cattle must be docile – there are no exceptions here. In order to ensure this we continually assess for temperament.

## SIMMENTAL GROUP BREEDPLAN

The values in this catalogue were calculated in the Simmental trans-tasman group breed plan evaluation. Each reported trait shows an EBV (estimated breeding value) and its accuracy. The EBV provides the best current estimate of the bull's true generic merit for that trait, relative to the overall base for the Simmental breed.

# SIMMENTAL STANDS ABOVE ALL ELSE

**Top three reasons why we stand firmly behind this statement and how we build on these here at Gold Creek.**

## GENTLE GIANTS

The Simmental breed of today is increasingly renowned for its positive impact on a herd in terms of docility and temperament – and it's something we select and cull heavily for here at Gold Creek. Kiwi farmers are forever busy people and the last thing they need is to be handling aggressive and flighty stock that pose a risk to both their safety and those around them.

In order to ensure docility in our herd we continually assess for temperament. All calves are given a docility score at weaning, which is then submitted to PBBNZ in order to generate official EBVs for temperament. Sale bulls are also independently scored for docility at the time of their structural assessment. All of our clients would stand testament to the fact that docility comes part and parcel with the Simmental Bulls they purchase year on year, and find them a pleasure to deal with.

Docility in a herd has a direct impact on the success of every other aspect of a commercial beef operation including calving, weight gain and carcass results – so it is something you simply can't do without.

## HEAVIER AND EARLIER FINISHERS

Simmental has become a household name for the breed that enables farmers to send cattle for slaughter after one winter, not two which of course produces a favourable result in terms of profitability. By finishing cattle faster, the cost savings in food are significant – the longer you need to feed an animal, the higher the cost to you as a farmer. Further to this, if you able to achieve slaughter rates after the one winter, you are well positioned to take advantage of premiums on offer and have more robust oversight of your cashflow.

At Gold Creek we place great emphasis on producing faster finishing, high yielding fleshy cattle. We want to put more meat on a smaller frame than traditional Simmentals, which is one of the main reasons for sourcing genetic material from beyond the shores of New Zealand as well. With clients consistently producing 300kg plus weaners each year, we can be confident our efforts here are paying off.

## MARKET FLEXIBILITY

With the above points in mind, we must remain cognisant of the fact that markets can be volatile so having some flexibility in terms of when you cash in on your progeny is key. Simmental is renowned for this market flexibility and the fact the breed is highly sought after as four-day-old calves, weaner calves, store cattle and at slaughter. That means you have the ability to ride any turbulence and sell at a time that will deliver the best profit result, rather than being at the mercy of the markets.

These are three of the standout features that make the Simmental breed stand out as superior to the rest, but they aren't the only.

As breeding females, the Simmental breed has been long proven as highly productive as well as being recognised for their excellent maternal qualities as well.

Regardless of your breeding programme and your objectives – the influence of the right Simmental bull will serve as a big step forward in the right direction and a decision you will not regret.

# SALE INFORMATION

## HEALTH

HEALTH Gold Creek Simmentals have a C10 TB status, TB has never been detected in the herd. All cattle have been tested negative and vaccinated for bvd. All cattle tested for Mycoplasma bovis.

## TRANSPORT

Gold Creek will transport bulls free of charge within 100km or for purchases of 2 or more bulls.

## GUARANTEE

All cattle sold come with a two year structure and fertility guarantee. In the rare case a bull is found to be infertile or incapable of natural service, Gold Creek will refund or replace the bull provided the problem is not caused by injury or disease incurred after taking delivery.

## TRANSFERS

All cattle are registered with the NZ Simmental Breeders Association and are eligible for transfer.

## ACCOMMODATION

please feel free to contact us if you require assistance with accomodation reservations or transfer from gisborne to the sale.

# 3RD ANNUAL AUCTION INFORMATION

## ON PROPERTY

**MONDAY 22 MAY 2023**

**SALE COMMENCES AT 2PM  
INSPECTION OF CATTLE FROM 12PM**

(lunch and refreshments available)

## ADDRESS

Gold Creek Sale Complex  
4557 Matawai Rd, RD2  
Te Karaka

# Unable to make the sale?

Buy online on bidr<sup>®</sup> in 3 easy steps:

1

Sign up at **bidr.co.nz** and add your agency account under account details.

2

Browse auctions to find livestock you are interested in buying.

3

Login and register for the real time online auction to bid for the livestock you wish to purchase.

## Why use bidr<sup>®</sup>?

- Free to sign up
- Nationwide reach
- Bid from anywhere
- View auctions and sales results
- Pay for your purchases through your livestock agency account

## Our partner agencies:

Through generations of experience, expertise and passion we bring to you this year's 2023 catalogue line up of superior, future-focussed Simmental bulls with outstanding breeding values to back them up.

Here at Gold Creek we stand behind the performance of our pure Simmental herd. Our bulls are bred from outstanding pedigree, showing great round muscle and carcase traits, and we place strong emphasis on culling and employing high selection pressure to ensure we are culling cattle that don't perform across docility or structure.

We take great pride in presenting to you the 2023 Gold Creek Simmental bulls and welcome you to take a look at the bulls we have to offer this year over the following pages.

| BULL DATA KEY |                      |
|---------------|----------------------|
|               | Bulls in top 10% EBV |
|               | Bulls in top 30% EBV |

LOT 1

# KLONDIKE (ET)

First up a cross that has worked very well, with four full ET brothers in this year's line up. Big, mobile Klondike will catch your eye. 200 and 600 day weights in the top 5%.

# 14 DAYS FREE COVER. NO BULL.

We want to ensure you get the very best cover on sale day and the best service every day after that. That's why we offer to insure your bull purchased at any **FMG Premier Bull Sale** for 14 days free\* from the fall of the hammer.

\* Subject to standard underwriting criteria. Please note this is only a summary of FMG products and services and is subject to our specific product documentation. For full details, refer to the relevant policy wording at [fmg.co.nz/livestockpolicy](https://fmg.co.nz/livestockpolicy)\*

**We're here for the good of the country.**

04/23 INHD

**Extend your cover.** All bulls purchased at auction up to \$50,000 can be insured for 6.5% of the purchase price on a 12-month policy. You can choose to extend your 14 days free cover on the Purchaser Instruction and Insurance Slip. For terms less than 12 months, different rates apply. So talk to your FMG Rural Manager about FMG Premier Bull Sales Insurance.

**FMG**

# CONDITIONS OF SALE

1. The sale will be conducted under the usual terms and conditions of the N.Z. Stock and Station Agents Assn. A copy of these terms & conditions will be available in the office on sale day.
2. Every lot will be at the risk of the purchaser from the fall of the hammer.
3. The agents can provide transit and period insurance if required.
4. Buyers are requested to leave the full address and specific delivery instructions with the booking clerk before leaving the sale.
5. This catalogue has been compiled by the vendor. Care has been taken to ensure accuracy but no responsibility is accepted for any error or omission.
6. All lots are sold exclusive of GST.
7. Arrangements must be made with the auctioneer **prior to the sale and settlement made on the buyers' behalf within 14 days.**

# HEALTH AND SAFETY

**UNDER THE HEALTH AND SAFETY AT WORK ACT 2015 WE ARE REQUIRED TO ADVISE PEOPLE OF POSSIBLE HAZARDS.**

1. Cattle Movement.
2. Vehicles and Machinery.
3. Cattle Yards, Slippery Surfaces.
4. Pavilion, Seating.

# WELCOME TO THE NEW BLACK

**HERE AT GOLD CREEK SIMMENTALS WE HAVE SOME EXCITING NEWS TO SHARE WITH YOU THAT WE'VE BEEN SITTING ON FOR A WEE WHILE.**

Over the last year we bought 50 black Simmentals from some very respectable NZ and Australian studs, with the cows due to calve later on this year.

Black Simmentals already enjoy a great name and reputation in the US and Australian markets where they are well established by farmers who are looking for more.

These cattle are well known and followed not just for their fantastic growth rates and carcase yield but also their low birth weight, calving ease, fertility - which are attributes that often aren't associated with Simmentals.

On top of this, Black Simmentals also perform well in IMF and marbling scoring which can in some cases attract premiums through processors' eating quality programmes.

When first crossed with Angus, these animals get a huge boost in these areas of performance but retain and remain black and polled - and are a beautiful sight to see as a line of cattle in the yards or out in the paddock.

With the beef cattle market dominated by Angus, Black Simmentals offer commercial farmers another option who are looking for the best of both the terminal and maternal worlds but might not have considered the traditional Simmental breed because of what it is perceived to lack in maternal and eating quality characteristics.

We are still committed to breeding high quality, traditional simmentals but see the introduction of Black Simmentals to our herd as another proposition for our farming clients to think about.

At Gold Creek Simmental we like to think that we never rest on our laurels - we push traditional boundaries and always strive to set a higher standard.

This investment into Black Simmentals we hope is more proof of that.

A limited number of Black Simmental bulls will be available to purchase in 2024 but the aim is to get them to feature as a strong line up to compliment our existing Simmentals in our 2025 sale.

We've already been fortunate enough to get some interest from commercial clients and we are confident the New Black (as we've affectionately titled it!) will attract even more interest as we get closer to sale time.

We will continue to keep you posted on our Black Simmental progress, so stay tuned and make sure you follow our Facebook page for updates.

If you'd like to know more or secure an advance interest in Black Simmentals please don't hesitate to get in touch with us. We'd be happy to talk and discuss possible options with you.

# FMG Premier Bull Sale Insurance

## What is FMG Premier Bull Insurance?

FMG provides automatic insurance for all bulls auctioned at an FMG Premier Bull Sale up to the value of \$50,000 for 14 days at no cost to the purchaser. For any bull purchased over \$50,000 talk to an FMG representative.

**What is the length of cover?**

You will automatically be insured for the specified bull for 14 days. You also have the option to extend the length of insurance to 12 months. Simply tick the “Extend your Premier Bull Insurance” option on the Purchaser Slip. The specified bull is then insured for the remaining period of 12 months at 6.5% of the purchase price. If you would like to discuss an alternative timeframe, please have a chat with your local FMG representative.

You don't have to pay today, FMG will invoice you for this additional cover.

### What are the benefits?

|                                |  |
|--------------------------------|--|
| ✓ <b><i>Infertility</i></b>    | Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, or illness.                       |
| ✓ <b><i>Theft or death</i></b> | We cover your specified bull for theft or death caused by certain accidents, disease, or illness (including while in transit anywhere in New Zealand). |
| ✓ <b><i>Vet costs</i></b>      | We cover up to \$500 for treatment of your specified bull to prevent death.  |

### What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

FMG Purchaser Instruction and Insurance Slip

FMG

Advice & Insurance

This slip **MUST** be fully completed and handed to the Booking Clerk before leaving the sale.

^ Required to correctly identify you once cover is issued.

|                              |      |   |                           |                    |                         |
